Cerberus Sciences makes no express or implied warranties in respect of the Supply except where this would contravene any statute or where the exclusion of an express or implied term, condition or warranty would be void ("collectively, Non-excludable warranty"). However, where exclusion of express or implied warranties does not constitute a Non-excludable Warranty, Cerberus Sciences excludes all warranties, terms and conditions and all liability to the Client for consequential or indirect loss or damages. In any event, in respect of both Non-excludable warranties and excludable warranties, Cerberus Sciences' liability arising from anything under this Supply is limited, at Cerberus Sciences' election, to an amount equal to the payment received from the Client for the Supply or the repeat provision of the Supply

The data presented for the 'Past 18 Months' has been generated by filtering only for Pathogen and Location. Therefore it includes all strains tested in that location for the pathogen within the past 18 months. The past data excludes the most recent test results.

Comment:

Samples Refs. were:

Sample 01, Sample 02, Sample 03, Sample 04.

On the lands and waters that we work, we walk, and we live, we acknowledge and respect the Traditional Custodians and cultural knowledge holders of these lands.

Cerberus Sciences makes no express or implied warranties in respect of the Supply except where this would contravene any statute or where the exclusion of an express or implied term, condition or warranty would be void ("collectively, Non-excludable warranty"). However, where exclusion of express or implied warranties does not constitute a Non-excludable Warranty, Cerberus Sciences excludes all warranties, terms and conditions and all liability to the Client for consequential or indirect loss or damages. In any event, in respect of both Non-excludable warranties and excludable warranties, Cerberus Sciences' liability arising from anything under this Supply is limited, at Cerberus Sciences' election, to an amount equal to the payment received from the Client for the Supply or the repeat provision of the Supply

All samples submitted tested negative by PCR/RT-PCR for the agents as indicated above.

PCR/RT-PCR assays include extraction, positive and negative controls to verify the results.
